- The Town Manager has been reappointed by League of California Cities City Managers Department as a member of the Environmental Quality Policy Committee for the
- Town staff held a meeting with the traffic safety committee to review a list of traffic safety concerns.
- Public Works Staff met with agency representatives and members of the development community in the region to prepare a Low Impact Design Manual as required by the State.
- Staff is working with the Placer County Region to participate in the Local Hazard Mitigation Plan required by FEMA for future funding.
- Staff met with Placer County and representatives from other nearby cities to discuss partnering in an effort to reduce the cost and be consistent in the region as we meet the requirements of the State National Pollutant Discharge Elimination System (NPDES) Permit.
- Staff is working with representatives from the Village to resolve the conflicts between the Town's Circulation Element and the Traffic Impact Analysis for the Village at Loomis Project.
- Staff met with the traffic safety committee to review a list of traffic concerns.
- Staff issued two separate Stop Work Notices to sites that were being graded without proper permits. Staff is working with the property owners to obtain the proper permits.
- Plan checked 16 Building Permits.
- Responded to 80 phone calls from residents, agencies and private companies.
- Staff continues to eliminate surplus equipment and unusable materials at the Corp Yard. Recycling as much of the materials as possible. Staff's efforts to clean, organize, repair and

replenish the corporation yard has resulted in increasing efficiency and preparedness for the upcoming rainy season. Staff purchased much needed hand tools from the money collected from recycling.

- Completed the purchase of the wood chipper. Ensured the equipment was set up properly and staff was properly trained on the operation and safety features.
- Staff issued two separate Stop Work Notices to sites that were being graded without proper permits. Staff is working with the property owners to obtain the proper permits.
- Plan checked 16 Building Permits.
- Responded to 80 phone calls from residents, agencies and private companies.
- Town staff is continuing working on plans for a dual EV Charging station in the Multi-Modal Parking Lot. The Town received a PTMISEA grant in the amount of \$51,366 to install EV charging stations. This item is scheduled for the Council's action at the January 12, 2016.
- The Town Manager is the Town's appointment on the Solid Waste Task Force.
- The Town Manager is coordinating with the region to provide an MOU for partnering with other cities to keep up with the demands of the State National Pollutant Discharge Elimination System (NPDES) Permit.
- Worked on clearing storm ditches and creeks throughout the Town to prepare for the upcoming rainy season.
- Town crews responded to local flooding and cleared drains, ditches and creeks during the rain events in October and November.
- Placed the new Sunrise Loomis Park sign.
- Picked up for sale signs, and political signs in our right-of-way all around town, in order to clear obstructions from driver's views, and to keep Loomis clean.
- Replaced street signs for Barton Rd, and Rocklin Rd.
- Routinely inspected several sites throughout the town with open grading and encroachment permits. Ensured that plans were being followed and that proper erosion and sediment control measures are in place.
- Responded to over 30 requests to mark underground storm drain facilities.
- Town Maintenance crews responded to and followed up on several resident complaints.
- Town crews trimmed trees on local streets.
- Town maintenance crew implemented a universal lock program by replacing Town locks with locks that are keyed the same.
- Preparing for the rainy season, the Town maintenance crew prepared a self-service a sandbag filling site near the corporation yard. The town has provided a limited amount of sand and bags for residents to use if needed.
- Staff is working with SPMUD to remove debris from inlets and manholes throughout the town.
- The Town's maintenance crew has filled several potholes throughout the town.
- Staff worked with developers to install culverts on Wells Ave. saving both time and money as well as eliminating the need for the Town to come back later and remove and replace improvements that the developer recently installed.
- Installed Charismas lights and decorations throughout the Town.
